Etonnoir cylindrique de sépartion, 75 ml, RN 29, compensation de pression, avec robinet, pour 665 64

7

With pressure equalization, 75 ml, ST stopper and 2 ST 29/32 fittings, with stopper. The ideal accessory for the MAEY-type gas generator. Combining these two units makes it possible to also produce gases from mixtures of liquides or powders with liquides:

Oxygen: O 2 from MnO2 and H2O2
Chlorine: Cl 2 from KMnO4 and HCl
Hydrogen chloride: HCl from NaCl and H 2SO4
Ammonia gas: NH 3 from NaOH and NH3 solution
Carbon monoxide: CO from H 2SO4 and HCOOH
Acethylene: Acethylen (Ethin): C 2H2 from CaC2 and H2 O
Methane: CH 4 from Al4C3 and H2 O

Caractéristiques techniques

Volume: 75 ml
Length: 100 mm
Grind: 2 ST 29/32

Import texte : janvier 2015
