Entrée analogique quadruple

4 fold analog input for input signals: - 0 1/5/10 V - 1 10 V - 0/4 20 mA - 0-1000 - PT 100 -4/-328
158/1472°F - potential-free contact

With evaluations in ETS 3 like freely adjustable sensor output signals, value display as 1-Bit, 1/2/4-Byte value, average calculation over 4/16/64 values, 2 adjustable threshold values per input channel, various arithmetic calculations.

Caractéristiques techniques

Mains voltage: 115 230 V AC

Auxiliary voltage: 24 V DC/300 mA
