Stereomicroscop LED, 230V

This stereomicroscope combines fantastic optics with a strong microscope stand. All parts are locked to the microscope. The microscope has anti-bacterial paint on the metal parts and anti-fungus coating on the optical (glass) parts.

Eyepieces: two WF10x/20 mm, locked, interpupillary distance: 50 mm to 75 mm adjustable

Head: 360° rotatable

Tube: 45° inclined, adjustable diopter (± 5)

Objectives: 2x and 4x through rotatable turret

Magnification: 20x and 40x

Focussing: coarse focussing knobs with slip clutch

Working distance: 76 mm

Visual range: 10 mm (2x) and 5 mm (4x)

Illumination: LED, incident and transmitted illumination, Lifetime LED: approx. 50.000 hours

Base with \varnothing 50 mm frosted glass and black/white plate with 2 stage clips

Cordless use: 3 hours charging time and 10 hours cordless working time (with optional rechargeable batteries)

Operational voltage: 100V

Length x Width x Height: 150 mm x 133 mm x 358 mm

Weight: 2,3kg
